

# SABRE CSR TEAM EVENTS

Great team events that have real and measurable outcomes for both the team and the community at large

[www.SabreHQ.com](http://www.SabreHQ.com)

Sabre has a myriad of team building programmes that are not only wonderful for team development but also deliver great outcomes for the community. Sabre has been delivering socially responsible team development programmes for over 20 years and has worked with charities and groups such as World Vision, Surf Life Saving Australia, Barnados, Salvation Army, Canteen both here in Australia and overseas. Our programmes provide world-class team events with real and measurable outcomes for both your team and the community at large. Below are some of more popular CSR events. If you would like a proposal for these or any other team and leadership programmes please just call or email the team.

### TEAM TOY STORY

If you asked any child if their toys are important, the answer would be a resounding YES. Your teams will have the chance to put smiles on the faces of kids by helping find some toys a new home! Teams undertake a number of challenges during "PlayTime" to earn points. These are both challenging team tasks that will test even the most cohesive teams through to classic games from our childhoods such as Snakes & Ladders and Connect 4! What teams don't realise is that points will convert to dollars. When Teams return to the conference room it has been converted into a massive toy store. Teams can use their points to shop for toys before packing them in boxes and freighting them to a charity of their choice. Great team skills and an event better 'feel good factor' will result from this fun and engaging event.

### WHOSE BIKE IS IT ANYWAY...?

A competitive challenge reveals itself to be a collaborative opportunity to have some fun and donate some great Bikes to under-privileged children. Teams undertake team challenges and tasks each of which yield Bike components from the "Bike Shop".

Once built and raced the truth becomes apparent when the Charity arrives to accept the team's donation of these great bikes.

Teams may also choose to build other necessities such as beds, bedroom furniture and desks! The possibilities are limited only by your imagination and the needs of the community.

### PAINTING A BRIGHTER FUTURE

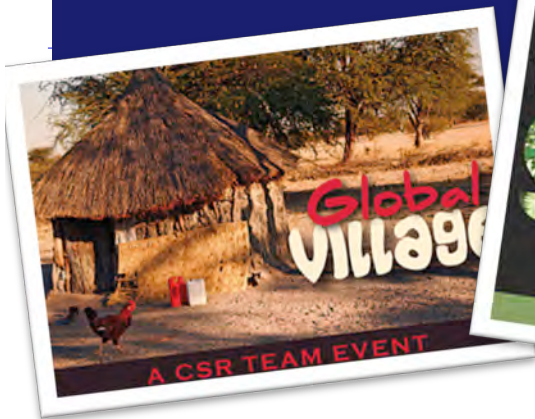

As a community we like to think that we are creating a brighter future for our children. With this activity your team can achieve this in a very literal and metaphorical sense!

We have selected and created colorful and interesting masterpieces that are a symbolic of the great work that charities such as World Vision and Unicef achieve in villages throughout the world. The team's challenge is to replicate these masterpieces. We supply everything you need to create your own masterpiece.

Teams will need to create, communicate and collaborate to create a fabulous giant masterpiece and a brighter future for our kids.

## GLOBAL VILLAGE

Village life is all about the community working together for the common good of all! In Global Village your team will have the opportunity to learn more about themselves as a team as well as contribute to the Global Village through the great work of World Vision..

The group will be divided into teams, each of which will be responsible for organizing an aid drop into their 'village'

Teams must deliver cross functionally between separate zones to build a device that takes the Aid packages from their start position to the village.

The teams must design and execute effectively the solution to this complex challenge. Success in the activity will result in real life aid packages being delivered on their behalf.

## GREEN TEAM

Triple Bottom Line Reporting becomes a tangible reality with your teams as they make a genuine contribution to the community via their team building activity.

Matching team activities with genuine environmental causes such as tree planting initiatives or wildlife conservation can be loads of fun, and also add a lasting legacy to your meeting or event. Being environmentally friendly, carbon neutral and aware of global warming are no longer just media hype, these are now serious issues about survival, sustainability and reducing our human "footprint" on the earth!

There are many ways you can add some genuine **"Green Credibility"** to your next meeting or event.

## BENEFICIAL BEATS

In this massive company project, each participant will seek sponsorship in advance of the event from friends and co workers for their role in a big challenge.

The challenge will be at your meeting or off site to acquire all of the necessary skills to perform in a huge Afro Caribbean percussion band. Not an easy task, but by working as a united team the skills can be learned and with their passion and energy devoted to a great cause, the objective can be achieved.

This is a fabulous way to get people creating and playing together whilst summarising key business and conference themes in a memorable and enjoyable way. It is also a real time project that requires genuine team skills.

Creativity, collaboration, unity and real business and community achievements can be brought to life.

**SOME OF THE  
ORGANISATIONS  
WE HAVE  
ASSISTED**

Unicef

World Vision

Bravehearts

Rotary

Red Cross

Smith Family
